When are We Making Money?

This table presents hourly sales data over a week, revealing peak earnings during midday and early evening hours, particularly between 10 AM and 3 PM. Notably, Wednesday and Friday stand out with significantly higher sales, indicating that these periods and days are the most profitable. This variability suggests strategic opportunities for optimizing operations and marketing efforts to maximize revenue.

hr	0	1	2	3	4	5	6
8	\$194	\$952	\$1,087	\$1,131	\$1,132	\$1,068	\$265
